

Zoar Road, Speedway Road and Bethesda Road Intersection Improvements

Project Need

- The existing intersection layout is confusing for motorists.
- There is a history of high accident rates at the intersection.
- Improvements were recommended by the DelDOT Highway Safety Improvement Program (HSIP) in 2002.
- The Route 24 Planning Study recommended that Speedway and Zoar Roads be signed as Alternate Route 24 and that a roundabout be considered at the intersection.
- Development continues east of US 113.
